Let's wrap in units of 500...I don't know how many will fit in a case...just make sure it's not more that 50 lbs. OK with you all?

Do we have any insturctions on how to box? I would say we just need them boxed by market - therefore 25,000 surveys per market. Any insights or requests from GMR?

Hi,
Basic/Cambridge has specifications on how they'd like their surveys boxed. Would you like the B&H surveys to be shipped in the same lots? Please let me know this morning so I can forward on to Burnett.
Thanks.

Please have the surveys boxed in units of 2500, 10 boxes total. We would also like them wrapped in units of 100.

Please lett me know if this is an issue.
